👤 About Me

Aspiring Full Stack Developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js), with a passion for building responsive, dynamic, and high-performing web applications. Proficient in HTML, CSS, JavaScript, and React for front-end development, and experienced in creating robust back-end services using Node.js and Express. Comfortable working with MongoDB for data management and integrating front-end and back-end through RESTful APIs. Additionally, possess a basic understanding of PHP and have implemented simple CRUD operations. Skilled in UI/UX design using Figma, with a strong eye for detail and usability. Eager to apply and enhance my skills in real-world projects and collaborative team environments.

✥ Skills

Tools
- VS Code
- Figma

Other

- HTML
- CSS
- Javascript
- React.js
- Node.js
- Express.js
- MongoDb
- Bootstrap

🎓 Education

● **Govt. Senior Seconsary School, Lahla, Palampur - Himachal Pradesh**

2020 - 2021

12th in Non-Medical

💼 Experience

● **InnoJs Infotech, Palampur**

Internship   April - 2025

Worked as a Full Stack Developer at InnoJS Infotech, building scalable web applications using React, Node.js, Express, and MongoDB. Designed websites and mobile apps on Figma. Implemented basic PHP CRUD operations. Collaborated with teams to deliver responsive UI, optimize performance, and follow agile development best practices.

● Cafe Website

Personal Project   February - 2025

Built a responsive and visually appealing website for a café and restaurant using React Vite. The site includes sections like Home, Location, Photos, Menu, Contact, and About, providing an intuitive user experience. Designed for easy navigation and showcasing the café's ambiance and offerings, without an online ordering feature.

● Weather App

Personal Project   January -2024

A responsive weather application built using React and OpenWeatherMap API. It allows users to search for real-time weather updates for any city, including current temperature, minimum and maximum temperatures, and location details. The app features a clean and modern design with smooth animations and responsive styling optimized for devices.

📖 Certifications

● **Certificate in Full Stack Developement - Netcoder Technology**

Completed | Dec 2024

- **Completed a project-based program covering front-end and back-end technologies, including MERN stack.**

● **Certificate in DCA - Arise Education Computer Training Center**

Completed | Dec 2022

- **Developed a foundational understanding of computer applications, including MS Office, basic programming, database management, and internet operations.**

🏠 Palampur, Kangra, Himachal Pradesh
